The Cost of Poverty Experience

COPE

COPE is a 2.5 hour experience that offers a personal connection to the stories and daily realities of the lives of families experiencing poverty in America.

34 Million Americans are affected by poverty, including 1 in every 5 children.

COPE gives participants and volunteers an opportunity to experience poverty firsthand through the eyes of real families. The experiential nature of this training helps organizations and communities more deeply understand the complexities of poverty, paving the way for addressing the issues of poverty more comprehensively.
